« FOSTERING A VECTOR FOR INNOVATIONS OF THE 21ST CENTURY »

THE SECRETARY-GENERAL FOREWORD

WWW.INTELLIGENCE.TV

« We want to see more widespread matrix interoperability, individual and life-long learning opportunities and development of connoisseurs, high-profile employees and ultra-affluent managers who possess the knowledges, skills and competencies to unify, with authority, the International Community's viability and to foster a vector for intellectual and technical innovation in the individuals who will shape the arts, the sciences and the humanities of the 21st Century! »

-- INTELLIGENCE FOUNDATION COUNCIL - EXECUTIVE ORDER EO: I E[1-III]

The Intelligence Foundation Team deploys passions and pursuits that shall constitute a building block and catalyst, offers uncommon insight with unusual breadth of knowledge, elegance and style for a vigorous approach to sustainable development at the heart of Education.

The Intelligence Foundation Institute fosters a vector for intellectual and technical innovation in the individuals who will shape the arts, the sciences and the humanities of the 21st Century. The Intelligence Foundation Council is not at all surprised that such leadership is most often to be found among the youth of our International Community.

FIGHTING TO PROTECT FREEDOM

When it comes to solving many of the problems of the International Community, the Intelligence Foundation is delighted to believe in youth power. They need to be carefully inspired, they need to be guided, and they need to be defended.

Eleanor Roosevelt once said something Intelligence Foundation pioneers have always found a source of great strength. We'd like to leave you with those words today:

« No one can make you feel inferior without your consent. »

It does not matter what your age, your gender, your size, your color, your bank balance is: do not consent to being made inferior. Think about it, act on it, live by it. You are the Architect of your existence!

« FOSTERING A VECTOR FOR INNOVATIONS OF THE 21ST CENTURY »

I. INTELLIGENCE FOUNDATION INC.: CORPORATE ACTIVITY

PREMIUM VISION: Dedicated men and women and innovative organizations inspiring, supporting and training the individuals who will fashion the arts, the sciences and the humanities of the 21st Century with a new tradition of responsibility for the whole, within the wider perspective of Society, in order to advance the education as an instrument to create positives and sustainable futures.

CONCEPTUAL TEMPLATE: Building and extending the concept of Human talent i.e. the professional, well-trained and ready intelligence - The Intelligence Foundation, a nonprofit organization, fosters a vector for intellectual and technical innovation in the individuals who will shape the arts, the sciences and the humanities of the 21st Century to strive to ensure full utilization of the community human potential.

Those activities and programs constitute the mechanisms by which the Intelligence Foundation plans to achieve each goal listed in its constitutive document:

A. AWARENESS

- **Intelligence Foundation Institute** [host of the United Nations' Satellite Radio Network terrestrial installations];
- Grants, prizes and acknowledgements; &
- Books and conferences.

B. INSPIRATION

- Grants, prizes and acknowledgements; &
- Books and conferences.

C. EDUCATION

- **Intelligence Foundation Institute** [intensive education and support]; &
- Books and conferences.

D. SUPPORT

- **Intelligence Foundation Institute** [intensive education and support];
- Grants, prizes and acknowledgements; &
- Books and conferences.

The Intelligence Foundation involves formal mind training, formal instruction and preparation for careers and improves useful branch of human knowledge by full and fair presentation of the facts.

ADVANCEMENT OF EDUCATION: EDUCATION IS THE ONE MOST CAPABLE OF RESPONDING TO THE FUNDAMENTAL PARADIGM SHIFT UNDERWAY INTERNATIONALLY - THE INTELLIGENCE FOUNDATION INSPIRES THE INDIVIDUALS WHO WILL SHAPE THE 21ST CENTURY AS THE FOUNDATION OF FREEDOM, JUSTICE AND PEACE IN THE WORLD.

III. INTELLIGENCE FOUNDATION INC.: PRESENTATION OF THE PRESIDENT

WWW.VINCENTBOUCHER.COM

I. FIRST-CLASS ACADEMIC QUALIFICATIONS

- 1998 - M.Sc. Aerospace Engineering, with internship at Canadian Space Agency;
- 1997 - M.A. Government Policy Analysis, with high recommendation by Dr Vincent Lemieux
- 1995 - B.Sc. Theoretical Physics, completed in 1 year!

II. PARTIAL JOB HISTORY

2003 to 2007 – Intelligence Foundation, President

To inspire, to support and to train the individuals who will fashion the arts, the sciences and the humanities of the 21st Century.

2003 to 2007 – Speaker & coach, willpower and vision / S&T / Business intelligence

2001 to 2003 – Canadian Space Agency – Technology Management Directorate

The Canadian Space Agency is the national space agency of Canada which ranks 8th as compared to other space agencies in size of budget. I was provided numerous opportunities to interface with the people, policies, procedures, programs and activities of the Canadian Space Program and each of its priority sectors.

2000 to 2001 – Canadian Space Agency – Spacecraft Engineering Group

The Canadian Space Agency's Spacecraft Engineering Group provided me until august 2000 the opportunity to progressively gain more responsibilities and an extensive and varied experience related to the development of the next generation technologies in mechanical, electrical and aerospace engineering in doing R&D on Passive Thermo-Optical Satellite Protection.

III. PRIZES AND AWARDS

1st at the 1993 Quebec Chemistry Order annual competition with a 100% score

GRE [Graduate Record Examination] Chemistry 93 %, Scaled scores: 880

GRE Physics 87 %, Scaled scores: 860

GRE Engineering 93 %, Scaled scores 790.

IV. VOLUNTEER EXPERIENCE

Canadian Space Agency employee's social committee President

V. INTELLIGENCE FOUNDATION INC.: EXTENSIVE CORPORATE ACTIVITY

The Intelligence Foundation Institute team themselves has pledged to be the keystone of the Intelligence industry that will soon become pre-eminent in this world. The Intelligence Foundation Institute has a Jewel status in the Intelligence Foundation portfolio. Institute's researchers and analysts are concerned by uncovering the truth over the future of perceived reality.

K. SERVICE LINE: INTELLIGENCE FOUNDATION INSTITUTE - INCLUDING THE UNITED NATIONS' SATELLITE RADIO NETWORK TERRESTRIAL INSTALLATIONS

The Intelligence Foundation Institute shall bases its actions on theoretical, practical, experimental teachings relevant to the scientific, social, technologic and artistic disciplines of the 21st Century. This training has for goal to intensively train and support the International Community's leaders of the future in the role they will play as part of the Community. This learning process invites the individuals to systematically look into their options and the importance of making choices in compliance with the goals they themselves wish to accomplish and with the fact that they are individuals and members of the International Community.

The Intelligence Foundation Institute strives to achieve an unprecedented total service level, with elegance and sophistication, and is accountable for the design, deployment, implementation and management of the Global Intelligence Foundation Institute Program.

The Intelligence Foundation Institute shall be state-of-the-art intensive training facility for individuals committed to shape the scientific, social, technologic and artistic disciplines of the 21st Century.

The Intelligence Foundation Institute will virtually link them together.

1. INTELLIGENCE FOUNDATION EXCELLENCE CENTER [JEWEL IN THE INTELLIGENCE FOUNDATION PORTFOLIO]

OVERVIEW

Perpetually overcoming constraints on our progress and possibilities as a species, the Intelligence Foundation Excellence Center strives to achieve pre-eminent total deployment by enabling previously impossible tasks to be accomplished.

Our Intelligence Foundation Excellence Center shall develop emerging and unprecedented advance in intelligence, superior physical abilities and humanities such as: Biochemical and Genetic Engineering, Worldwide Data Networks, Space Technologies, Neuroscience, Molecular Nanotechnologies and Life Extending Bioscience. We will outline alternative inherent intelligence and instinctual ability to use current scientific understanding along with critical and creative thinking to achieve and enrich capabilities opening up to humanity.

RELEVANCE

The Intelligence Foundation Excellence Center is committed to providing forward-looking and strategic Intelligence. What the conventional organizations thought was impossible, we dare to realize. The Intelligence Foundation Excellence Center shall sustain those gains in future to ensure, over time, a full utilization of the International Community human talent.

GOVERNING AGREEMENTS

Internal

1. Executive Order EO: I R&D [1 – II] and Memorandum of Understanding between the Intelligence Foundation Institute and the Intelligence Foundation Excellence Center to allow resources and information flow, signed November 5, 2005.

External

The program is not dependent on other External activities outside of the control of the Intelligence Foundation.

PROGRAM MANAGEMENT

Intelligence Foundation Excellence Center program responsibility delegated to the Intelligence Foundation Engineering Task Force [IFETF] working groups on Biochemical and Genetic Engineering, Worldwide Data Networks, Space Technologies, Neuroscience, Molecular Nanotechnologies and Life Extending Bioscience managed by Area Directors [AD, members of the Intelligence Foundation Steering Group [IFSG]]. The Intelligence Foundation Council [IFC] has governing responsibility. Enterprise Official is Mr. Vincent Boucher, President, CEO & CFO of Intelligence Foundation HQ. The program is in full compliance with Executive Order EO: III M[3-I].

ESTABLISHMENT OF TEACHING CHAIRS¹

Teaching chairs shall be chosen by our Strategic Information Analysis Council as well as by Intelligence Foundation Council [EX].

Our Center will not have as a goal to bring its support to existing institutes [such as universities] and to permanent members of these institutions [teachers]. Instead, our goal is to explore a bit more in the margin of under-exploited disciplines due to very recent creation or in multidisciplinary zones of convergence very little encouraged by actual research and development structures, but certainly renowned domains of knowledge. We also want to free the researchers of common restraints associated to the

¹ Each teaching chair must satisfy every of these conditions:

- Clearly show the will of self-determination and mind independence;
- Have an unrivalled, well-established will of surpassing and accomplishment. We also consider the stability and durability of the teaching chair's development;
- Must show a well-established, autodidact, out of the ordinary working capacity;
- Possess communication and leadership talents established without a doubt in domains such as the radio, electronic and written medias.

« FOSTERING A VECTOR FOR INNOVATIONS OF THE 21ST CENTURY »

corporative, public or parapublic world [e.g. short-term profitability obligation, conventional and not very hazardous projects, etc.] and give them a complete freedom for their researches, allowing them to take intellectual risks impossible to imagine in other circumstances

The selection criteria will be updated and publicized quarterly on the website www.intelligence.tv by Intelligence Foundation's academicians.

ELECTION OF THE INTELLIGENCE FOUNDATION EXCELLENCE CENTER RESEARCHERS²

We will particularly consider the researchers from disadvantaged quarters [socially and/or economically] explicitly immigrants, poor and natives, but also individuals restive to the educative system restraints [e.g. obedience, arbitrary discipline] and corporative restraints [e.g. hierarchic structures]. These criteria shall be enriched on regular intervals by the interdepartmental committee of intelligence, by the directors' bureau as well as by the Intelligence Foundation's executive committee. The Intelligence Foundation Institute teaching chairs will be innovative and ambitious educationalists inspiring, training and supporting the individuals that will define the society of the 21st Century to build a better and fair world³.

EXECUTIVE SUMMARY

RESEARCHES IN RENOWNED DOMAINS OF KNOWLEDGE MEANT FOR EDUCATIVE PURPOSES - The goal of the Intelligence Foundation's Intelligence excellence Center is to further push the limits of researches on, and make a methodological analysis of, the training of the individuals who will transform the Canadian scientific, social, technologic and artistic domains of the 21st Century.

RESULTS AVAILABLE TO THE PUBLIC - The Intelligence excellence Center will encourage the publication and public dissemination of the researches by conferences, conventions, all-level media diffusions [International public as well as communal radios, private and public television, newspapers] etc. To do this, the Intelligence Excellence Center will have the best multimedia and telecommunications equipment that numeric technology can offer.

² The selection criteria of the researcher of our Center are:

- A very first condition is that the individual be proactive: they must clearly show the will of self-determination and mind independence. Our evaluation mechanism of this precise point is simple: the initial contact must have been made at the instigation of the researcher. This one will send us a document stipulating his accomplishments.
- Secondly, we mention an unrivalled, well-established will of surpassing and accomplishment. We also evaluate the stability and durability of the researcher's development.
- Thirdly, the candidate must show a well-established, autodidact, out of the ordinary working capacity.
- In fourth position, the researchers must possess communication and leadership talents established without a doubt in domains such as the radio, electronic and written Medias.

³ We will particularly consider the candidates from disadvantaged quarters [socially and/or economically] explicitly immigrants, poor and natives, but also individuals restive to the educative and corporative systems restraints.

UNIFYING THE INTERNATIONAL COMMUNITY: THE UNITED NATIONS' SATELLITE RADIO NETWORK TERRESTRIAL INSTALLATIONS

OVERVIEW

DEVELOPMENT OF A MAJOR SATELLITE RADIO NETWORK & INTERNET RADIO NETWORK FROM OVER 68 UNITED NATIONS COUNTRIES. Major strategic alliances are forming in which UN.FM will be developing over 100 multi-language web-sites featuring Radio programming and each will be sponsored by major advertisers and linked to the mother site, WWW.UN.FM⁴.

Our United Nation's Satellite Radio Network Terrestrial Installations shall foster freedom of communication, innovation, and learning, favoring the rule of law and decentralization of power and responsibility.

« FOSTERING A VECTOR FOR INNOVATIONS OF THE 21ST CENTURY »

We all face tremendous challenges in preventing⁶ crises of the future. The Intelligence Foundation - United Nations' Satellite Radio Network shall reflect an uncommon understanding of the passions and pursuits of our ultra-knowledgeable, highly educated & ultra-affluent true connoisseurs.

Intelligence Foundation work shows how much can be achieved by joining forces across traditional lines in pursuit of common goals. I hope that we can develop early warning and advocacy role even further, complementing to own efforts, while maintaining the independence and high credibility of our analyses. But for individuals and societies to flourish, liberty must come with personal responsibility. The complex and dangerous world we face demands nothing less.

The Intelligence Foundation will not stand still, because the threats to Humanity do not stand still.

2.

- 6 I. What causes conflicts: What are the various underlying and immediate sources of major violent, destructive conflicts, and what signs give early warning of their emergence?
 - II. Political will: How can we mobilize sufficient political support and resources to undertake timely and effective preventive action?
 - III. Effectiveness: What methods of preventive action actually work?
 - IV. Institutionalization: How can procedures and policies for anticipating and responding to possible conflicts be operationalized in the regular functioning of international governmental and non-governmental organizations?
 - V. Coherence: How can the work of various actors be done in a more concerted way?
- Together, we will need to delve even deeper into such questions. They need to be carefully thought through, they need to be defended and they need to be strengthened!

CENTRAL INTELLIGENCE FOUNDATION NETWORK

OVERVIEW

The near future Worldwide Community will face a wide range of interests, opportunities, and challenges and will require the strategic concepts of decisive intelligence, power projection and overseas presence that govern the efforts of our Intelligence Foundation to meet the challenges of the future.

Whereas Member Departments have pledged themselves to achieve Information Superiority by uncovering the truth over the future of perceived reality.

Now, therefore, the Intelligence Foundation Council [EX] wishes to Execute Executive Order EO: III 0[5-1] by instigating a new Task Force: the Central Intelligence Foundation Network.

CORE PURPOSE

Established and operated for charitable purposes, the Central Intelligence Foundation Network's basis are three-fold:

- I] - The centrality of Information Superiority;
- II] - The premium a continuing broad range of operations will place on the successful integration of multinational and interagency partners and the interoperability of processes, organizations, and systems to provide a tangible benefit to the International Community; and
- III] - Our reliance on the Intelligence Foundation Joint Force as the foundation of future operations.

Because of its flexibility and responsiveness, the Central Intelligence Foundation Network shall remain the key to operational success in the future.

PERFORMER I - CENTRAL INTELLIGENCE FOUNDATION NETWORK INFORMATION CENTER - CIFNIC

The Central Intelligence Foundation Network Information Center [CIFNIC] is operated by the Intelligence Foundation Information Systems [WBIS]. It provides information and services that are mission critical to the operation of the Intelligence Foundation Community, Intelligence Foundation Information Systems Network and other High Intelligence Networks to provide a tangible benefit to the International Community.

PERFORMER II - CENTRAL INTELLIGENCE FOUNDATION NETWORK ENGINEERING TASK FORCE - CIFNETF

The Central Intelligence Foundation Network Engineering Task Force [CIFNETF] is a large open community of Intelligence experts. They support the Intelligence Foundation Council and all who make and execute the Intelligence Foundation Policy to provide a tangible benefit to the International Community. The CIFNETF researchers are concerned with the evolution of the Intelligence Foundation Architecture and the pre-eminent total deployment of the Intelligence Foundation.

The actual implementation of the CIFNETF is done in working groups, which are organized by topic into several areas [e.g., Intelligence proliferation, deployment, propagation]. Much of the work is handled via direct communications. The CIFNETF holds meetings three times per year.

CIFNETF working groups are organized into areas, and managed by Area Directors, or ADs. The ADs are members of the Central Intelligence Foundation Network Steering Group [CIFNSG]. Providing architectural oversight is the Central Intelligence Foundation Network Architecture Board, [CIFNAB]. The CIFNAB also adjudicates appeals when a member complains that the CIFNSG has failed. The CIFNAB and CIFNSG are chartered by the Intelligence Foundation Society [IFSOC] for these purposes. The General Area Director also serves as the chair of the CIFNSG and of the CIFNETF, and is an ex-officio member of the CIFNAB.

The Central Intelligence Foundation Network Assigned Numbers Authority [CIFNANA] is the central coordinator for the assignment of unique parameter values for our Intelligence Foundation protocols. The CIFNANA is chartered by the Intelligence Foundation Society to act as the clearinghouse to assign and coordinate the use of numerous Intelligence Foundations protocol parameters.

OPPORTUNITIES OFFERED TO THE MEMBERS

A significant part of the Intelligence Foundation's work is to put the academicians in contact with key elements of the private, public and parapublic entrepreneurial world. Those contacts are made in an extremely personalized way between the heads of different, renowned and interested organisms, the most influential actors on contemporary scene and our academicians. Examples of the personalities most in the public eye with which the Intelligence Foundation keeps close contacts are members of the Montreal Conferences governor bureau, the superior echelons of the World Bank, of the F.M.I., the O.C.D.E., numerous central agencies [such as the Canadian Spatial Agency], etc., but also leading heads in the artistic and cultural domains.

Detailed Terms of Reference shall be developed in consultation with the Intelligence Foundation stakeholders, Program Overview Committee and Service Line Advisory Group within limits set by the above.

EURO 1.500 BILLION [€1,500,000,000.00] HUMANITARIAN PROJECT IN EDUCATION

« FOSTERING A VECTOR FOR INNOVATIONS OF THE 21ST CENTURY »

L. BOOKS AND CONFERENCES

OVERVIEW

Based on the last discoveries of our Intelligence Foundation Excellence Center, our Books and Conferences program shall inspire the youth of the International Community to search by their own path to defy the limits of knowledge by use of creativity, reasoning and critical thinking and eventually work conjointly with us to build a fair and better world.

CORE PURPOSE

One of the Foundation's purposes is to develop a culture of self-determination acts. Intelligence Foundation's Books and Conferences shall make significant contributions toward global scientific, social, technologic and artistic literacy elevation throughout the International Community. To inspire young to search their own path and to defy the limits of Knowledge.

RELEVANCE

Education and Public Benefits. Near future Intelligence Foundation Excellence Center endeavors will provide the world with spectacular results and bring us the answers to International Community up most fundamental questions. As innovative & sophisticated instruments will be created, we will witness the birth of unraveled Intelligence. This flood of knowledge shall be diffused all around the globe via front page press, television, websites, and school curricula at all levels.

VI. INTELLIGENCE FOUNDATION INC.: INTERNATIONAL MANAGEMENT FRAMEWORK

Recognizing that a strength of our Intelligence Foundation policy has always been to bring stakeholders to focus, collectively, on identifying priorities and strategic objectives, the Intelligence Foundation Executive Committee has formalized the structure and processes by which it interacts with the International Community.

The purpose of this Management Framework is to describe how the Intelligence Foundation ensures the participation of the International Community in the definition and implementation of the Intelligence Foundation Policy. Referred to as the Management Framework, this section has been developed based upon three guiding principles:

- 1] - The President of the Intelligence Foundation is accountable for the Intelligence Foundation Policy;
- 2] - The International Community must have input and visibility in decisions involving resource allocation within our Intelligence Foundation program; and
- 3] - The Management Framework Structure and Processes must be compatible with the Intelligence Foundation Planning, Reporting and Accountability Structure [PRAS].

M. INTERNATIONAL DECISION-MAKING WITHIN THE INTELLIGENCE FOUNDATION

The top level decision making structure of the Intelligence Foundation has three key elements:

- 1] - The President of the Intelligence Foundation who is accountable for the Intelligence Foundation Program;
- 2] - The Intelligence Foundation Executive Committee which is the formal decision-making body of the Division; and
- 3] - The Intelligence Foundation Program Review and Advisory Board [PRAB] which reviews and makes recommendations to the Executive Committee on program plans, policies and resource allocations.

Although the development of programs and their implementation are interrelated, they are considered as two distinct functions within the Intelligence Foundation. Program implementation is the primary responsibility of the Intelligence Foundation Core Function Managers, who report to the Intelligence Foundation President. The co-ordination of program development is the primary responsibility of the Intelligence Foundation Service Line Coordinators, who report to the Intelligence Foundation First Executive Vice-President.

N. INTERNATIONAL STAKEHOLDERS' PARTICIPATION IN DECISION-MAKING

To ensure International Community input and visibility in the establishment of the Intelligence Foundation Policy objectives and strategies as well as in the implementation of program plans, the Management Framework includes the following bodies:

- 1] - The Intelligence Foundation Board of Directors;

O. INTELLIGENCE FOUNDATION INTERNATIONAL BOARD OF DIRECTORS

The Board of Directors advises the Intelligence Foundation President on the overall strategic direction to be given to the Intelligence Foundation Program. It brings a value-added perspective on the external environment in which the Intelligence Foundation must operate and contributes to the identification of opportunities outside Intelligence Foundation's traditional area of operations.

The Board comments on the Intelligence Foundation Program performance in meeting strategic objectives and assists the Intelligence Foundation President in establishing the most appropriate balance between priority areas of activities [i.e. balance between programmatic service lines described in the following section].

At least half of the Board members are representatives from the industry, academia and other groups or individuals able to bring a positive contribution. Board members will be appointed by the Intelligence Foundation President, who will also designate one member as Chair of the Board.

Detailed Terms of Reference shall be developed within limits set by the above

P. INTELLIGENCE BUSINESS SERVICE LINE INTERNATIONAL ADVISORY GROUPS

The Service Line Advisory Groups provide the International Community with visibility on the performance and input into the establishment of priorities for Programmatic Service Lines. Programmatic Service Lines are priority areas of activities within our Intelligence Foundation Program.

Responding to overall priorities and strategies established by Intelligence Foundation, the Service Line Advisory Groups provide the Foundation with a broad and in depth perspective on trends, opportunities and threats pertaining to their programmatic service line Co-chaired by the Intelligence Foundation Executive Vice-President and a non-Intelligence Foundation stakeholder, each advisory group comments on its service line performance and advises on priorities, strategies and plans.

Appointed by the Intelligence Foundation President, advisory group members will include representation, as appropriate for each service line, from stakeholders in the federal and provincial governments, the industry, universities and research institutes as well as groups or individuals outside of traditional Intelligence Foundation stakeholders. Detailed Terms of Reference shall be developed in consultation with the International Community within limits set by the above.

Detailed Terms of Reference shall be developed in consultation with stakeholders within limits set by the above.

Q. INTELLIGENCE FOUNDATION INTERNATIONAL PROGRAM MANAGEMENT BOARDS

International Program Management Boards are the mechanism by which the Intelligence Foundation manages programs funded by the Intelligence Foundation and implemented with other stakeholders. Their role is to ensure that the portfolio of projects and activities under a specific program contribute to the service line strategy they relate to and are implemented in the most efficient manner. As such, they are a key element in supporting the President's accountability for these programs.

Established as needed by the Intelligence Foundation, International Management Boards are chaired jointly by an Intelligence Foundation Core Function Manager and a Program Manager. Unless exceptional circumstances prevail, members will only be drawn from the Intelligence Foundation stakeholders.

Detailed Terms of Reference shall be developed within limits set by the above.

R. INTELLIGENCE FOUNDATION INTERNATIONAL INTERDEPARTMENTAL COMMITTEE

The Intelligence Foundation International Interdepartmental Committee provides a forum where issues can be collectively discussed with all International Intelligence Foundation Program stakeholders. Chaired by the President of the Intelligence Foundation, meetings are called as required. Members include representatives from all departments having an interest in the Intelligence Foundation Program.

Detailed Terms of Reference shall be developed within limits set by the above.

S. INTELLIGENCE FOUNDATION INTERNATIONAL OVERVIEW COMMITTEE

Established in accordance with the Intelligence Foundation International Policy Framework, the Intelligence Foundation International Program Overview Committee [IFIPOC] provides a forum where issues can be collectively discussed with all International Intelligence Foundation Program stakeholders. Chaired by the President, meetings are called as required. Members are identified by the Intelligence Foundation Executive Committee Members.

Detailed Terms of Reference shall be developed within limits set by the above.

VIII. CONCLUSION

INTELLIGENCE FOUNDATION WILL NOT STAND STILL, BECAUSE THE THREATS TO HUMANITY DO NOT STAND STILL
ROOTED IN OLD AND RICH CULTURE, YET WITH ITS EYE FIRMLY ON BUILDING A BETTER FUTURE

Study after study has taught us that there is no tool for development more effective than advancement of education to achieve gender equality, development, as well as economic and social justice. The benefits can be seen immediately: families are healthier; they are better fed; their income, savings, and reinvestment go up. Their faith in themselves, their respect for one another, their access to accurate, comprehensive information and education, will determine not only their own well-being, but that of the International Community since what is true of families is true of regional communities and, eventually, the whole Humanity.

This revolution cannot be imposed from outside. But it can be encouraged, through support for leadership figures that are emerging. That encouragement is Intelligence Foundation's mission. The Intelligence Foundation considers it is among young people that the heroes and heroines are to be found. The Foundation recognize that Education is an investment in an informed citizenry, that investments in education also represents investments in health, in the environment, in labor, in the development of human resources, that such investments can yield the best of all returns: rewarding, prosperous lives for all the world's people. Through its simple but powerful mission the Intelligence Foundation forges an extraordinary consensus on actions to ensure success in its endeavors.

To succeed in many of its endeavors and to be ready for tomorrow, the Intelligence Foundation Institute will invests in Education by the recruiting, developing and retaining of completion-oriented, highly motivated and fiercely energetic men and women with the courage, determination, and strength to ensure a fully Joint Workforce: Intellectually, operationally, organizationally, doctrinally, and technically. Our sophisticated volunteers are true connoisseurs, highly educated & ultra-affluent leaders offering the very best inspiration to fulfill those responsibilities and to meet the challenges of the future. The Intelligence Foundation shall sustain those gains in future to ensure, over time, a full utilization of the International Community human talent.

SCIENCE IS TO REACH ITS FULL POTENTIAL

We are living in a period of unprecedented advances in science. Science contributes immensely to the development of modern society, and the application of scientific knowledge shall furnish powerful means for solving many of the challenges facing humanity. Near future advances in genetic science and biotechnology will hold out extraordinary prospects for mankind as a whole.

A GENUINE FORCE FOR PEACE

My friends, the Intelligence Foundation is all about allies working together, and about building coalitions. And we need to find within ourselves the will to live by the values we proclaim -- in our private lives, in our local and national societies, and in the world. Our Intelligence Foundation Global Program is an unprecedented contribution to global development, sustainability and peace. I thank all involved for this gift to future generations.

The Intelligence Foundation does not forget that all the hardware, technology, and concepts it deploys would be useless without the innovation, commitment, and creativity of its workforce.
